Understanding the Financial Statements

The Financial Statements compare the current 2015/16 financial year to the previous 2014/15 financial year. They comprise two main sections namely the main statements and the notes.

There are five main statements:

- 1. Comprehensive Income Statement
- 2. Balance Sheet
- 3. Statement of Changes in Equity
- 4. Cash Flow Statement
- 5. Statement of Capital Works
- 6. Performance Statement

1. Comprehensive Income Statement

The Comprehensive Income Statement is designed to show if Council's operations were in surplus or deficit during the financial year.

The surplus/(deficit) amount is calculated as total income less total expenses. A surplus means that income was greater than expenses.

The Comprehensive Income Statement contains:

- Income the sources of Council's income under various income headings.
- Expenses the expenditure incurred in running the Council during the year. This expenditure relates to the 'operations' and does not include the capital costs associated with the purchase or the creation of fixed assets. While asset purchase costs are not included in the expenses they are included within 'Depreciation and amortisation'. This amount is the value of the assets 'used up' during the year.
- Other comprehensive income this section includes items such as net asset revaluation increments and impairment of expenses. Impairment occurs when the value of Council's assets are reduced or impaired usually due to damage or obsolescence.

The comprehensive result is arrived at by adjusting the net surplus/(deficit) by the other comprehensive income items. The comprehensive result is also equal to the movement in Council's net assets (total equity) from the prior year.

2. Balance Sheet

The Balance Sheet shows what Council owns as assets and what it owes as liabilities. It presents a one page summary which is a snapshot of the financial position as at 30 June.

The bottom line of this statement is called 'net assets' which is the net worth of Council which has been built up over many years.

Net assets = Total assets - total liabilities = Total equity

Assets and liabilities are separated into current and non-current. Generally, current means those assets or liabilities which will fall due in the next 12 months.

3. Statement of Changes in Equity

During the course of the year the value of total equity as set out in the Balance Sheet changes. The Statement of Changes in Equity shows the values of these changes that may include:

- The 'profit or loss' from operations, described in the statement as 'surplus/(deficit) for the year'.
- The use of monies from Council's reserves and transfers to Council's reserves.
- The revaluation of fixed assets.
- The share of revaluations of investments in joint venture assets.
- The recognition of an asset for the first time.

4. Statement of Cash Flows

The Cash Flow Statement provides a summary of Council's cash receipts and cash payments during the year. The bottom line is the cash balance at the end of the financial year.

This statement shows the movements in the bank balance during the course of the year and is dissected into the following three sections:

- Cash flows from operating activities All receipts to and payments from Council's bank account for normal operations. Receipts include monies from rates, grants and from amounts owing to Council. Payments mainly include monies paid to suppliers and employees.
- Cash flow from investing activities This section mainly comprises payments for the creation or purchase of fixed assets (capital items) as well as the proceeds from asset sales.
- Cash flow from financing activities This section includes the proceeds from loan borrowing as well as loan interest and the repayment of outstanding loans.

5. Statement of Capital Works

Statement of capital works shows all capital expenditure of Baw Baw Shire Council in relation to non-current assets and asset expenditure type prepared in accordance with the model statement of capital works in the Local Government Financial Report.

6. Performance Statement

The Performance Statement provides the results of the sustainable capacity, service performance and financial performance indicators and measures required under the *Local Government Act 1989* and *Local Government (Planning and Reporting) Regulations 2014.*

FOR THE YEAR ENDED 30 JUNE 2016

Introduction

The Baw Baw Shire Council was established by an Order of the Governor in Council on 2 December 1994 and is a body corporate. The Council's main office is located at Drouin.

Statement of compliance

These financial statements are a general purpose financial report that consists of a Comprehensive Income Statement, Balance Sheet, Statement of Changes in Equity, Statement of Cash Flows, Statement of Capital Works and Notes accompanying these financial statements. The general purpose financial report complies with the Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board, the Local Government Act 1989, and the Local Government (Planning and Reporting) Regulations 2014.

Note 1 Significant accounting policies

(a) Basis of accounting

The accrual basis of accounting has been used in the preparation of these financial statements, whereby assets, liabilities, equity, income and expenses are recognised in the reporting period to which they relate, regardless of when cash is received or paid.

Judgements, estimates and assumptions are required to be made about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated judgements are based on professional judgement derived from historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Revisions to accounting estimates are recognised in the period in which the estimate is revised and also in future periods that are affected by the revision. Judgements and assumptions made by management in the application of AAS's that have significant effects on the financial statements and estimates relate to:

- the fair value of land, buildings, infrastructure, plant and equipment (refer to Note 1 (m))

- the determination of depreciation for buildings, infrastructure, plant and equipment (refer to Note 1 (n))

- the determination of employee provisions (refer to Note 1 (t))

Unless otherwise stated, all accounting policies are consistent with those applied in the prior year. Where appropriate, comparative figures have been amended to accord with current presentation, and disclosure has been made of any material changes to comparatives.

(b) Changes in accounting policies

There have been no changes in accounting policies from the previous period.

(c) Principles of consolidation

There are no incorporated entities controlled by Council as at 30 June 2016.

Subsidiaries are all entities over which Council has control. Council controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Council. They are deconsolidated from the date that control ceases.

Where dissimilar accounting policies are adopted by entities and their effect is considered material, adjustments are made to ensure consistent policies are adopted in these financial statements.

(d) Committees of management

Council's controlled Committees of Management did not demonstrate material revenues, expenses, assets or liabilities and are subsequently excluded from this financial report.

FOR THE YEAR ENDED 30 JUNE 2016

Note 1 Significant accounting policies (cont.)

(e) Accounting for investments in associates and joint arrangements

Associates

Associates are all entities over which Council has significant influence but not control or joint control. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Joint arrangements

Investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations each investor has, rather than the legal structure of the joint arrangement.

(i) Joint operations

Council recognises its direct right to, and its share of jointly held assets, liabilities, revenues and expenses of joint operations. These have been incorporated in the financial statements under the appropriate headings.

(ii) Joint ventures

Interests in joint ventures are accounted for using the equity method. Under this method, the interests are initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise Council's share of the post-acquisition profits or losses and movements in other comprehensive income in profit or loss and other comprehensive income respectively.

(f) Revenue recognition

Income is recognised when the Council obtains control of the contribution or the right to receive the contribution, it is probable that the economic benefits comprising the contribution will flow to the Council and the amount of the contribution can be measured reliably.

Rates and Charges

Annual rates and charges are recognised as revenues when Council issues annual rates notices. Supplementary rates are recognised when a valuation and reassessment is completed and a supplementary rates notice issued.

Statutory fees and fines

Statutory fees and fines (including parking fees and fines) are recognised as revenue when the service has been provided, the payment is received, or when the penalty has been applied, whichever first occurs.

User fees

User fees are recognised as revenue when the service has been provided or the payment is received, whichever first occurs.

Grants

Grant income is recognised when Council obtains control of the contribution. This is normally obtained upon their receipt (or acquittal) or upon earlier notification that a grant has been secured, and are valued at their fair value at the date of transfer.

Where grants or contributions recognised as revenues during the financial year were obtained on condition that they be expended in a particular manner or used over a particular period and those conditions were undischarged at balance date, the unused grant or contribution is disclosed in **Note 6**. The note also discloses the amount of unused grant or contribution from prior years that was expended on Council's operations during the current year.

Contributions

Monetary and non monetary contributions are recognised as revenue when Council obtains control over the contributed asset.

Sale of property, infrastructure, plant and equipment

The profit or loss on sale of an asset is determined when control of the asset has irrevocably passed to the buyer.

Interest

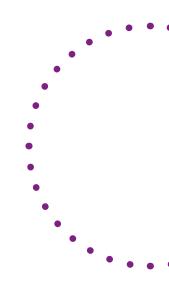

Interest is recognised as it is earned.

Dividends

Dividend revenue is recognised when the Council's right to receive payment is established.

Other Income

Other income is measured at the fair value of the consideration received or receivable and is recognised when Council gains control over the right to receive the income.

FOR THE YEAR ENDED 30 JUNE 2016

Note 1 Significant accounting policies (cont.)

(g) Fair value measurement

Council measures certain assets and liabilities at fair value where required or permitted by Australian Accounting Standards. AASB 13 Fair value measurement, aims to improve consistency and reduce complexity by providing a definition of fair value and a single source of fair value measurement and disclosure requirements for use across Australian Accounting Standards.

AASB 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value under AASB 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within a fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For the purpose of fair value disclosures, Council has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

In addition, Council determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

(h) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits at call, and other highly liquid investments with original maturities of 90 days or less, net of outstanding bank overdrafts.

(i) Trade and other receivables

Receivables are carried at amortised cost using the effective interest rate method. A provision for doubtful debts is recognised when there is objective evidence that an impairment has occurred.

(j) Other financial assets

Other financial assets are valued at fair value, being market value, at balance date. Term deposits are measured at amortised cost. Any unrealised gains and losses on holdings at balance date are recognised as either a revenue or expense.

(k) Inventories

Inventories held for distribution are measured at cost, adjusted when applicable for any loss of service potential. Inventories are measured at the lower of cost and net realisable value.

All other inventories, including land held for sale, are measured at the lower of cost and net realisable value. Where inventories are acquired for no cost or nominal consideration, they are measured at current replacement cost at the date of acquisition.

(I) Non-current assets classified as held for sale

A non-current asset classified as held for sale (including disposal groups) is measured at the lower of its carrying amount and fair value less costs to sell, and are not subject to depreciation. Non-current assets, disposal groups and related liabilities and assets are treated as current and classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only

when the sale is highly probable and the asset's sale (or disposal group sale) is expected to be completed within 12 months from the date of classification.

(m) Recognition and measurement of property, plant and equipment, infrastructure, intangibles Acquisition

• The purchase method of accounting is used for all acquisitions of assets, being the fair value of assets provided as consideration at the date of acquisition plus any incidental costs attributable to the acquisition. Fair value is the

amount for which the asset could be exchanged between knowledgeable willing parties in an arm's length transaction.

Where assets are constructed by Council, cost includes all materials used in construction, direct labour, borrowing costs incurred during construction, and an appropriate share of directly attributable variable and fixed overheads.

FOR THE YEAR ENDED 30 JUNE 2016

Note 1 Significant accounting policies (cont.)

(m) Recognition and measurement of property, plant and equipment, infrastructure, intangibles (cont'd) In accordance with Council's policy, the threshold limits detailed in Note 1 (n) have applied when recognising assets within an applicable asset class and unless otherwise stated are consistent with the prior year.

Revaluation

Subsequent to the initial recognition of assets, non-current physical assets, other than plant and equipment, are measured at their fair value, being the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. At balance date, the Council reviewed the carrying value of the individual classes of assets measured at fair value to ensure that each asset materially approximated its fair value. Where the carrying value materially differed from the fair value at balance date, the class of assets was revalued.

Fair value valuations are determined in accordance with a valuation hierarchy. Changes to the valuation hierarchy will only occur if an external change in the restrictions or limitations of use of an asset result in changes to the permissible or practical highest and best use of the asset. Further details regarding the fair value hierarchy are disclosed at **Note 22** Property, infrastructure, plant and equipment.

In addition, Council undertakes a formal revaluation of land, buildings, and infrastructure assets on a regular basis ranging from 2 to 5 years. The valuation is performed either by experienced council officers or independent experts.

Where the assets are revalued, the revaluation increments are credited directly to the asset revaluation reserve except to the extent that an increment reverses a prior year decrement for that class of asset that had been recognised as an expense in which case the increment is recognised as revenue up to the amount of the expense. Revaluation decrements are recognised as an expense except where prior increments are included in the asset revaluation reserve for that class of asset in which case the decrement is taken to the reserve to the extent of the remaining increments. Within the same class of assets, revaluation increments and decrements within the year are offset.

Land under roads

Council recognises land under roads it controls at fair value.

(n) Depreciation and amortisation of property, infrastructure, plant and equipment and intangibles

Buildings, land improvements, plant and equipment, infrastructure, and other assets having limited useful lives are systematically depreciated over their useful lives to the Council in a manner which reflects consumption of the service potential embodied in those assets. Estimates of remaining useful lives and residual values are made on a regular basis with major asset classes reassessed annually. Depreciation rates and methods are reviewed annually.

Where assets have separate identifiable components that are subject to regular replacement, these components are assigned distinct useful lives and residual values and a separate depreciation rate is determined for each component.

Road earthworks are not depreciated on the basis that they are assessed as not having a limited useful life.

Straight line depreciation is charged based on the residual useful life as determined each year.

Depreciation periods used are listed below and are consistent with the prior year unless otherwise stated.

Depreciation

Threshold

(o) Repairs and maintenance

Routine maintenance, repair costs, and minor renewal costs are expensed as incurred. Where the repair relates to the replacement of a component of an asset and the cost exceeds the capitalisation threshold the cost is capitalised and depreciated. The carrying value of the replaced asset is expensed.

(p) Investment property

Investment property, comprising freehold office complexes, is held to generate long-term rental yields. Investment property is measured initially at cost, including transaction costs. Costs incurred subsequent to initial acquisition are capitalised when it is probable that future economic benefit in excess of the originally assessed performance of the asset will flow to the Council. Subsequent to initial recognition at cost, investment property is carried at fair value, determined annually by independent valuers. Changes to fair value are recorded in the comprehensive income statement in the period that they arise. Rental income from the leasing of investment properties is recognised in the comprehensive income statement on a straight line basis over the lease term. Council has no investment properties during 2015/16 financial year.

(q) Impairment of assets

At each reporting date, the Council reviews the carrying value of its assets to determine whether there is any indication that these assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the assets carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the comprehensive income statement, unless the asset is carried at the revalued amount in which case, the impairment loss is recognised directly against the revaluation surplus in respect of the same class of asset to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same class of asset.

FOR THE YEAR ENDED 30 JUNE 2016

Note 1 Significant accounting policies (cont.)

(r) Trust funds and deposits

Amounts received as deposits and retention amounts controlled by Council are recognised as trust funds until they are returned, transferred in accordance with the purpose of the receipt, or forfeited (refer to **Note 25**).

(s) Borrowings

Borrowings are initially measured at fair value, being the cost of the interest bearing liabilities, net of transaction costs. The measurement basis subsequent to initial recognition depends on whether the Council has categorised its interest-bearing liabilities as either financial liabilities designated at fair value through the profit and loss, or financial liabilities at amortised cost. Any difference between the initial recognised amount and the redemption value is recognised in net result over the period of the borrowing using the effective interest method.

The classification depends on the nature and purpose of the interest bearing liabilities. The Council determines the classification of its interest bearing liabilities at initial recognition.

Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred, except where they are capitalised as part of a qualifying asset constructed by Council. Except where specific borrowings are obtained for the purpose of specific asset acquisition, the weighted average interest rate applicable to borrowings at balance date, excluding borrowings associated with superannuation, is used to determine the borrowing costs to be capitalised.

Borrowing costs include interest on bank overdrafts, interest on borrowings, and finance lease charges.

(t) Employee costs and benefits

The calculation of employee costs and benefits includes all relevant on-costs and are calculated as follows at reporting date.

Wages and salaries and annual leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulated sick leave expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits in respect of employee services up to the reporting date, classified as current liabilities and measured at their nominal values.

Liabilities that are not expected to be wholly settled within 12 months of the reporting date are recognised in the provision for employee benefits as current liabilities, measured at the present value of the amounts expected to be paid when the liabilities are settled using the remuneration rate expected to apply at the time of settlement.

Long service leave

Liability for long service leave (LSL) is recognised in the provision for employee benefits.

Current liability - unconditional LSL is disclosed as a current liability even when the council does not expect to settle the liability within 12 months because it will not have the unconditional right to defer settlement of the entitlement should an employee take leave within 12 months.

The components of this current liability are measured at :

- present value component that is not expected to be wholly settled within 12 months.
- nominal value component that is expected to be wholly settled within 12 months.

Classification of employee costs

Non-current liability - conditional LSL that has been accrued, where an employee is yet to reach a qualifying term of employment, is disclosed as a non - current liability. There is an unconditional right to defer settlement of the entitlement until the employee has completed the requisite years of service.

This non-current LSL liability is measured at present value.

(u) Landfill rehabilitation provision

Council is obligated to restore Trafalgar site to a particular standard. The forecast life of the site is based on current estimates of remaining capacity and the forecast rate of infill. The provision for landfill restoration has been calculated based on the present value of the expected cost of works to be undertaken. The expected cost of works has been estimated based on current understanding of work required to reinstate the site to a suitable standard. Accordingly, the estimation of the provision required is dependent on the accuracy of the forecast timing of the work, work required and related costs.

FOR THE YEAR ENDED 30 JUNE 2016

Note 1 Significant accounting policies (cont.)

(v) Leases

Finance leases

Leases of assets where substantially all the risks and rewards incidental to ownership of the asset, are transferred to the Council are classified as finance leases. Finance leases are capitalised, recording an asset and a liability at the lower of the fair value of the asset and the present value of the minimum lease payments, including any guaranteed residual value. Lease payments are allocated between the reduction of the lease liability and the interest expense. Leased assets are depreciated on a straight line basis over their estimated useful lives to the Council where it is likely that the Council will obtain ownership of the asset or over the term of the lease, whichever is the shorter. Council currently has no finance leases.

Operating leases

Lease payments for operating leases are required by the accounting standard to be recognised on a straight line basis, rather than expensed in the years in which they are incurred.

Leasehold improvements

Leasehold improvements are recognised at cost and are amortised over the unexpired period of the lease or the estimated useful life of the improvement, whichever is the shorter. At balance date, Council has no leasehold improvements.

(w) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the Statement of Cash Flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(x) Financial guarantees

Financial guarantee contracts are not recognised as a liability in the balance sheet unless the lender has exercised their right to call on the guarantee or Council has other reasons to believe that it is probable that the right will be exercised. Details of guarantees that Council has provided, that are not recognised in the balance sheet, are disclosed at **Note 34** contingent liabilities and contingent assets.

(y) Contingent assets and contingent liabilities and commitments

Contingent assets and contingent liabilities are not recognised in the Balance Sheet, but are disclosed by way of a **Note 34** and, if quantifiable, are measured at nominal value. Contingent assets and liabilities are presented inclusive of GST receivable or payable respectively.

Commitments are not recognised in the Balance Sheet. Commitments are disclosed at their nominal value by way of **Note 31** and presented inclusive of the GST payable.

(z) Pending accounting standards

Certain new AAS's have been issued that are not mandatory for the 30 June 2016 reporting period. Council has assessed these pending standards and has identified that no material impact will flow from the application of these standards in future reporting periods.

(aa) Rounding

Unless otherwise stated, amounts in the financial report have been rounded to the nearest thousand dollars. • Figures in the financial statement may not equate due to rounding.

•

FOR THE YEAR ENDED 30 JUNE 2016

Note 2 Budget comparison

The budget comparison notes compare Council's financial plan, expressed through its annual budget, with actual performance. The *Local Government (Planning and Reporting) Regulations 2014* requires explanation of any material variances. Council has adopted a materiality threshold of \$500,000 where further explanation is warranted. Explanations have not been provided for variations below the materiality threshold unless the variance is considered to be material because of its nature.

The budget figures detailed below are those adopted by Council on 25 May 2015. The Budget was based on assumptions that were relevant at the time of adoption of the Budget. Council sets guidelines and parameters for income and expense targets in this budget in order to meet Council's planning and financial performance targets for both the short and long-term. The budget did not reflect any changes to equity resulting from asset revaluations, as their impacts were not considered predictable.

These notes are prepared to meet the requirements of the Local Government Act 1989 and the Local Government (Planning and Reporting) Regulations 2014.

—			· · · ·	

(i) Explanation of material variations Item Explanation

Variance Ref	ltem	Explanation
1	Grants-operating	Victorian Grants Commission income of \$3.9m was received in advance at the end of the prior 2015 year.
2	Grants-capital	Council did not receive \$2.25m of funding for the Warragul Leisure Centre project but the impact of this was partially offset by the receipt of additional income of \$1.3m for Roads to Recovery.
3	Contributions-monetary	Warragul Development Contributions Plan contribution of \$795k was not identified at the time of completion of the 2016 budget.
4	Contributions-non monetary	Contributions-non monetary is lower than budget due to a lower level of economic activity resulting in less than expected contributions from subdivisions.
5	Other income	Income from investments exceeded budget by \$374k as cash holdings were in excess of budget during the financial year. Additionally, Council received \$100k of unbudgeted income from insurance claims.
6	Materials and services	Expenditure exceeded budget by \$2.9m due to the write-off of capital works (in progress) from prior years of \$0.8m plus a further \$2m additional landfill provision.
• 7	Other expenses	Expenditure was below budget by \$514k mainly due to savings in computer lease costs as well as lower than expected payments for community grants and contributions.
8	Net gain(loss) on disposal of property, infrastructure, plant and equipment	Council was required to write off the book value of buildings (Warragul Leisure Centre) to the value of \$2.5m that was not identified at the time of completion of the 2016 budget. In addition the replacement of road resealing works resulted in the higher than expected write off of book value by a further \$1.9m.

			<u> </u>	

(i) Explanation of material variations

Variance Ref	ltem	Explanation
1	Buildings	Reduction in expenditure of \$2.25m due to non receipt of equivalent grant funding for the Warragul Leisure Centre project.
2	Computers and Telecommunications	Budgeted expense to implement a document management system (\$0.5m) was not incurred with unspent funds to be carried forward to the ensuing 2017 year.
3	Roads	Under expenditure is mainly due to Darnum Park Road (\$0.5m) and the Memorial Precinct Construction (\$0.6m) projects withdrawn during the financial year due to non-availability of budgeted external funding. In addition a further \$0.7m savings from various projects was reallocated to complete urgent footpath works.
4	Footpaths and Cycleways	Higher than budget expenditure for the new footpath program by \$0.7m due to Council's decision to reallocate savings from the Roads budget.
5	Drainage	Unbudgeted expenditure mainly comprises savings attributable to the Longwarry Flooding Mitigation project (tender savings). In addition further investigation is required before Council can complete the Yarragon Retardation-Land Acquisition project.
6	Waste Management	For management control purposes the Waste Management budget included expenditure for the Trafalgar landfill site rehabilitation works. By contrast the actual expenditure of \$1.3m was allocated to the Balance Sheet provision account consistent with accounting standards.
7	Parks, open space & streetscape	The variance is mainly due to a \$0.8m overspend against Bellbird Park Sustainable Wastewater Reuse due to additional work that was fully funded by corresponding external income.

FOR THE YEAR ENDED 30 JUNE 2016

Note 3 Rates and charges

Council uses Capital Improved Value (CIV) as the basis of valuation of all properties within the municipal district. The CIV of a property is its market value of land and improvements as of January 2014.

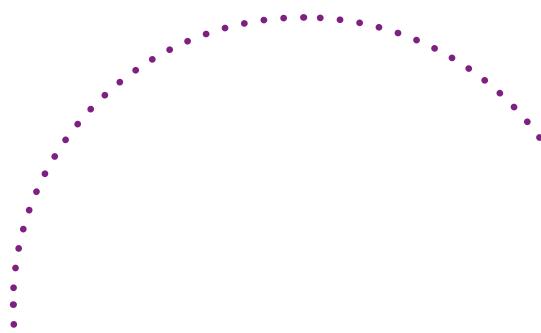

The valuation base used to calculate general rates for 2015/16 was \$9,239million (2014/15 \$9,041 million).

General Rates	41,660	39,616
Waste management charge	7,188	6,810
Supplementary rates, waste and adjustments	502	632
Total rates and charges	49,350	47,058

The date of the latest general revaluation of land for rating purposes within the municipal district was 1st January 2014, and the valuation will be first applied in the rating year commencing 1st July 2014.

Councils cash and cash equivalents are subject to external restrictions that limit amounts available for discretionary use. These include:	4 000	4 500
- Trust funds and deposits (Note 25)	1,600	1,526
- Reserve funds allocated due to external restrictions (contractual agreement) (Note 28)	3,738	5,563
- Unspent grants (Note 6)	2,150	2,570
Total restricted funds	7,488	9,659
Total unrestricted cash and cash equivalents	11,447	5,328
Intended allocations Although not externally restricted the following amounts have been allocated for specific future purposes by Council:		
- Cash held to fund carried forward capital works	3,345	4,227
Total funds subject to intended allocations	3,345	4,227
Total unrestricted cash and cash equivalents adjusted for intended allocation	8,102	1,101
Refer also to Note 18 for details of other financial assets held by Council.		
Note 17 Trade and other receivables		
Current Rates debtors	3,639	2 207
Other debtors	2,800	3,287 2,067
Sundry debtors	761	613
Net GST receivable	689	717
Total current trade and other receivables	7,889	6,684
Total trade and other receivables	7,889	6,684
(a) Ageing of Receivables At balance date other debtors representing financial assets were past due but not impaired. These amounts relate to a number of independent customers for whom there is no recent histo of default. The ageing of the Council's trade & other receivables (excluding statutory receivable was:	s)	040
Current (not yet due) Past due by up to 30 days	3,403 121	846 1,612
Past due by up to 30 days Past due between 31 and 180 days	121	1,012
Past due between 181 and 365 days	9	25
Past due by more than 1 year	17	32
Total Other and Sundry debtors	3,561	2,680
(b) Provision for doubtful debts		
Council has assessed there are no doubtful debts and continues to actively manage overdue debtors through payment plans.

FOR THE YEAR ENDED 30 JUNE 2016

Note 22 Property, infrastructure, plant and equipment (cont'd)

Valuation of land and buildings

Valuation of land and buildings were undertaken by a qualified independent valuer Herron Todd White on 31 March 2015 (Craig McMillan AAPI, registration no.62705 and Ben Walpole, AAPI). The valuation of land and buildings is at fair value, being market value based on highest and best use permitted by relevant land planning provisions. Where land use is restricted through existing planning provisions the valuation is reduced to reflect this limitation. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Specialised land is valued at fair value using site values adjusted for englobo (undeveloped and/or unserviced) characteristics, access rights and private interests of other parties and entitlements of infrastructure assets and services. This adjustment is an unobservable input in the valuation. The adjustment has no impact on the comprehensive income statement.

Any significant movements in the unobservable inputs for land and land under roads will have a significant impact on the fair value of these assets.

Details of the Council's land and buildings and information about the fair value hierarchy as at 30 June 2016 are as follows:

	Level 1	Level 2	Level 3
Non-Specialised Land		24,216	-
Specialised land	-	-	60,870
Specialised Buildings		-	76,234
Total	-	24,216	137,104

Valuation of infrastructure

Valuation of infrastructure assets has been determined in accordance with a Council's valuation undertaken on 31 March 2014 by Teck Ting (Civil) MIE Aust, CP Eng.

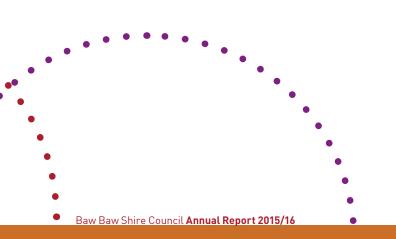

The valuation is at fair value based on replacement cost less accumulated depreciation as at the date of valuation.

Details of the Council's infrastructure and information about the fair value hierarchy as at 30 June 2016 are as follows:

	Level 1	Level 2	Level 3
Roads	-	-	313,180
Bridges and Major Culverts	-	-	14,649
Footpaths and cycleways	-	-	29,186
Drainage	-	-	53,773
Open Space and			
recreational facilities	-	-	11,313
Off street car parks		-	4,354
Total		-	426,455

FOR THE YEAR ENDED 30 JUNE 2016

Note 22	Property, infrastructure, plant and equipment (cont'd)	2016 \$'000	2015 \$'000
	Description of significant unobservable inputs into level 3 valuations		
	Specialised land and land under roads is valued using a market based direct comparison technique. Significant unobservable inputs include the extent and impact of restriction of use and the market cost of land per square metre. The extent and impact of restrictions on use varies and results in a reduction to surrounding land values between 5% and 95%. The market value of land varies significantly depending on the location of the land and the current market conditions. Currently land values range between \$0.46 and \$380 per square metre.	60,870	60,511
	Specialised buildings are valued using a depreciated replacement cost technique. Significant unobservable inputs include the current replacement cost and remaining useful lives of buildings. Current replacement costs is calculated on a square metre basis and ranges from \$169 to \$3,350 per square metre. The remaining useful lives of buildings are determined on the basis of the current condition of buildings and vary from 30 years to 80 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of buildings are sensitive to changes in expectations or requirements that could either shorten or extend the useful lives of buildings.	76,234	77,003
	Infrastructure assets are valued based on the depreciated replacement cost. Significant unobservable inputs include the current replacement cost and remaining useful lives of infrastructure. The remaining useful lives of infrastructure assets are determined on the basis of the current condition of the asset and vary from 10 years to 100 years. Replacement cost is sensitive to changes in market conditions, with any increase or decrease in cost flowing through to the valuation. Useful lives of infrastructure are sensitive to changes in use, expectations or requirements that could either shorten or extend the useful lives of infrastructure assets.	<u>426,455</u>	424,651
	Reconciliation of specialised land		
	Land under roads	17,958	17,911
	Parks, Gardens and reserves	24,105	23,793
	Other	18,807	18,807
	Total specialised land	60,870	60,511

	Other refundable deposits	154	136
	Total trust funds and deposits	1,600	1,526
	Purpose and nature of items		

Refundable deposits - Deposits are taken by council as a form of surety in a number of circumstances, including in relation to building works, tender deposits, contract deposits and the use of civic facilities.

Fire Service Levy - Council is the collection agent for fire services levy on behalf of the State Government. Council remits amounts received on a quarterly basis. Amounts disclosed here will be remitted to the state government in line with that process.

Retention Amounts - Council has a contractual right to retain certain amounts until a contractor has met certain requirements or a related warrant or defect period has elapsed. Subject to the satisfactory completion of the contractual obligations, or the elapsing of time, these amounts will be paid to the relevant contractor in line with Council's contractual obligations.

Note 28 (b) (continued)

Note 20 (b) (continued)		
Open space	The Open Space Reserve holds funds contributed by developers for works associated with developing improved open space and recreational facilities within Council. Funds are contributed in accordance with Section 18 of the Subdivision Act 1988 and transfers are restricted to the purpose of creating open space such as parks, playgrounds, pavilions and other such items where it is deemed that these works should occur at a later point than the initial development.		
Car parking	This reserve retains funds contributed by developers for works associated with developments that require additional car parking within Council. Transfers to the reserve comprise contribution income from developers in lieu of the provision of additional car parking spaces.		
DCP01 & 02	These reserves retain funds received from developers for infrastructure provision related to the Baw Baw Shire Development Contributions Plans. DCP01 refers to the Baw Baw Shire Development Contribution Plan 23 March 2007 and DCP02 refers to the Warragul Development Contributions Plan September 2014. Transfers from these reserves will be for nominated capital works for development infrastructure projects and community infrastructure projects. These funds are tied directly to the income received or cash funds refunded to developers for capital works completed directly by the developer.		
Land sales	This reserve comprises sale proceeds from land previously identified as open space land that, at the time of acquisition, would qualify for funding from the Open Space Reserve (refer above).		
Native vegetation offset	Funds contributed to Council from developers and residents who propose to remove native vegetation. The funds are then applied to offset the removal of native vegetation by making an equivalent contribution to Victoria's biodiversity. Offset requirements are determined in accordance with permitted clearing of native vegetation – Biodiversity assessment guidelines.

	Later than one year and not later than five years	2,275	1,385
	Later than five years	373	244
		3,366	2,135

Note 33 Superannuation

Council makes the majority of its employer superannuation contributions in respect of its employees to the Local Authorities Superannuation Fund - Vision Super. This Fund has two categories of membership, accumulation and defined benefit, each of which is funded differently. Obligations for contributions to the Fund are recognised as an expense in the Comprehensive Income Statement when they are made or due.

Accumulation

The Fund's accumulation categories, Vision MySuper/Vision Super Saver, receive both employer and employee contributions on a progressive basis. Employer contributions are normally based on a fixed percentage of employee earnings (for the year ended 30 June 2016, this was 9.5% as required under Superannuation Guarantee legislation).

Defined Benefit

Council does not use defined benefit accounting for its defined benefit obligations under the Fund's Defined Benefit category. This is because the Fund's Defined Benefit category is a pooled multi-employer sponsored plan.

There is no proportional split of the defined benefit liabilities, assets or costs between the participating employers as the defined benefit obligation is a floating obligation between the participating employers and the only time that the aggregate obligation is allocated to specific employers is when a call is made. As a result, the level of participation of Council in the Fund cannot be measured as a percentage compared with other participating employers. Therefore, the Fund Actuary is unable to allocate benefit liabilities, assets and costs between employers for the purposes of AASB 119.

Funding arrangements

Council makes employer contributions to the Defined Benefit category of the Fund at rates determined by the Trustee on the advice of the Fund Actuary.

As at 30 June 2015, an interim actuarial investigation was held as the Fund provides lifetime pensions in the Defined Benefit category. The vested benefit index (VBI) of the Defined Benefit category of which Council is a contributing employer was 105.8%. To determine the VBI, the fund Actuary used the following long-term assumptions:

Net investment returns 7.0% pa

Salary information 4.25% pa

Price inflation (CPI) 2.5% pa.

Vision Super has advised that the estimated VBI at 30 June 2016 was 102.0%. The VBI is to be used as the primary funding indicator. Because the VBI was above 100%, the 2015 interim actuarial investigation determined the Defined Benefit category was in a satisfactory financial position and that no change was necessary to the Defined Benefit category's funding arrangements from prior years.

Employer contributions

Regular contributions

On the basis of the results of the 2015 interim actuarial investigation conducted by the Fund Actuary, Council makes employer contributions to the Fund's Defined Benefit category at rates determined by the Fund's Trustee. For the year ended 30 June 2016, this rate was 9.5% of members' salaries (9.5% in 2014/2015). This rate will increase in line with any increase to the contribution rate. In addition, Council reimburses the Fund to cover the excess of the benefits paid as a consequence of retrenchment above the funded resignation or retirement benefit.

FOR THE YEAR ENDED 30 JUNE 2016

Note 33 Superannuation (cont'd)

Funding calls

If the Defined Benefit category is in an unsatisfactory financial position at an actuarial investigation or the Defined Benefit category's VBI is below its shortfall limit at any time other than the date of the actuarial investigation, the Defined Benefit category has a shortfall for the purposes of SPS 160 and the Fund is required to put a plan in place so that the shortfall is fully funded within three years of the shortfall occurring. The Fund monitors its VBI on a quarterly basis and the Fund has set its shortfall limit at 97%.

In the event that the Fund Actuary determines that there is a shortfall based on the above requirement, the Fund's participating employers (including Council) are required to make an employer contribution to cover the shortfall. Using the agreed methodology, the shortfall amount is apportioned between the participating employers based on the pre-1 July 1993 and post-30 June 1993 service liabilities of the Fund's Defined Benefit category, together with the employer's payroll at 30 June 1993 and at the date the shortfall has been calculated.

Due to the nature of the contractual obligations between the participating employers and the Fund, and that the Fund includes lifetime pensioners and their reversionary beneficiaries, it is unlikely that the Fund will be wound up. If there is a surplus in the Fund, the surplus cannot be returned to the participating employers. In the event that a participating employer is wound-up, the defined benefit obligations of that employer will be transferred to that employer's successor.

2015 Interim actuarial investigation surplus amounts

The Fund's interim actuarial investigation as at 30 June 2015 identified the following in the defined benefit category of which Council is a contributing employer:

A VBI surplus of \$130.8 million; and

A total service liability surplus of \$239 million.

The VBI surplus means that the market value of the fund's assets supporting the defined benefit obligations exceed the vested benefits that the defined benefit members would have been entitled to if they had all exited on 30 June 2015. The total service liability surplus means that the current value of the assets in the Fund's Defined Benefit category plus expected future contributions exceeds the value of expected future benefits and expenses. Council was notified of the 30 June 2015 VBI during August 2015.

Future superannuation contributions

The expected contributions to be paid to the Defined Benefit category of Vision Super for the year ending 30 June 2017 is \$130,000.

Note 34 Contingent liabilities and contingent assets

Contingent liabilities

1. Defined Benefit funding calls

Council has obligations under a defined benefit superannuation scheme that may result in the need to make additional contributions to the scheme, matters relating to this potential obligation are outlined in **Note 33**. As a result of the volatility in financial markets the likelihood of making such contributions in future periods exists. At this point in time it is not known if additional contributions will be required, their timing or potential amount.

2. Landfill rehabilitation liabilities

Council previously operated a landfill at Trafalgar. Operations ceased at the landfill in November 2011. Council is continuing to carry out site rehabilitation works. At balance date, Council has a landfill provision with a balance of \$5.903 million.

3. Guarantees for loans to other entities

Council took a bank guarantees for landfill rehabilitation obligation. This bank guarantee is still active and will be fully discharged when Council finishes its 30 years landfill aftercare program. The amount disclosed for financial guarantee in this note is the nominal amount of the underlying loan that is guaranteed by the Council, not the fair value of the financial guarantee.

Number	Amount	Issue Date	Favouree	Status
306398	\$446,688	24/06/2008	State of Victoria Environment Protection Authority	Active
Total	\$446,688			

4. Legal proceedings

Council has received a claim from a contractor for additional costs, while undertaking a contract. Council is defending the claim.

FOR THE YEAR ENDED 30 JUNE 2016

Note 35 Financial instruments

(a) Objectives and policies

The Council's principal financial instruments comprise cash assets, term deposits, receivables (excluding statutory receivables), payables (excluding statutory payables) and bank borrowings. Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument is disclosed in **Note 1** of the financial statements. Risk management is carried out by senior management under policies approved by the Council. These policies include identification and analysis of the risk exposure to Council and appropriate procedures, controls and risk minimisation.

(b) Market risk

Market risk is the risk that the fair value or future cash flows of council financial instruments will fluctuate because of changes in market prices. The Council's exposure to market risk is primarily through interest rate risk with only insignificant exposure to other price risks and no exposure to foreign currency risk.

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates. Council's interest rate liability risk arises primarily from long term loans and borrowings at fixed rates which exposes council to fair value interest rate risk / Council does not hold any interest bearing financial instruments that are measured at fair value, and therefore has no exposure to fair value interest rate risk. Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Council has minimal exposure to cash flow interest rate risk through its cash and deposits that are at floating rates.

Investment of surplus funds is made with approved financial institutions under the Local Government Act 1989. Council manages interest rate risk by adopting an investment policy that ensures:

- diversification of investment product;
- monitoring of return on investment; and
- benchmarking of returns and comparison with budget.

There has been no significant change in the Council's exposure, or its objectives, policies and processes for managing interest rate risk or the methods used to measure this risk from the previous reporting period.

Interest rate movements have not been sufficiently significant during the year to have an impact on the Council's year end result.

(c) Credit risk

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause Council to make a financial loss. Council have exposure to credit risk on some financial assets included in the balance sheet. To help manage this risk:

- council have a policy for establishing credit limits for the entities Council deal with;

- council may require collateral where appropriate; and

- council only invest surplus funds with financial institutions which have a recognised credit rating specified in council's investment policy.

Receivables consist of a large number of customers, spread across the ratepayer, business and government sectors. Credit risk associated with the Council's financial assets is minimal because the main debtor is secured by a charge over the rateable property.

There are no material financial assets which are individually determined to be impaired.

Council may also be subject to credit risk for transactions which are not included in the balance sheet, such as when Council provide a guarantee for another party. Details of our contingent liabilities are disclosed in **Note 34**.

The maximum exposure to credit risk at the reporting date to recognised financial assets is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the balance sheet and notes to the financial statements. Council does not hold any collateral.

FOR THE YEAR ENDED 30 JUNE 2016

Note 35 Financial instruments (cont'd)

(d) Liquidity risk

Liquidity risk includes the risk that, as a result of council's operational liquidity requirements it will not have sufficient funds to settle a transaction when required or will be forced to sell a financial asset at below value or may be unable to settle or recover a financial asset.

To help reduce these risks Council:

- have a liquidity policy which targets a minimum and average level of cash and cash equivalents to be maintained;
- have readily accessible standby facilities and other funding arrangements in place;
- have a liquidity portfolio structure that requires surplus funds to be invested within various bands of liquid instruments;
- monitor budget to actual performance on a regular basis; and

- set limits on borrowings relating to the percentage of loans to rate revenue and percentage of loan principal repayments to rate revenue.

The Council's maximum exposure to liquidity risk is the carrying amounts of financial liabilities as disclosed on the face of the balance sheet and the amounts related to financial guarantees disclosed in **Note 34**, and is deemed insignificant based on prior periods' data and current assessment of risk.

There has been no significant change in Council's exposure, or its objectives, policies and processes for managing liquidity risk or the methods used to measure this risk from the previous reporting period.

With the exception of borrowings, all financial liabilities are expected to be settled within normal terms of trade. Details of the maturity profile for borrowings are disclosed at **Note 27**.

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

(e) Fair value

Fair value hierarchy

Council's financial assets and liabilities are not valued in accordance with the fair value hierarchy, Council's financial assets and liabilities are measured at amortised cost.

(f) Sensitivity disclosure analysis

Taking into account past performance, future expectations, economic forecasts, and management's knowledge and experience of the financial markets, Council believes the following movements are 'reasonably possible' over the next 12 months:

- A parallel shift of + 0.5% and -0.5% in market interest rates (AUD) from year-end rates of 1.75%.

These movements will not have a material impact on the valuation of Council's financial assets and liabilities, nor will they have a material impact on the results of Council's operations.

Note 36 Related party transactions (cont'd)

(iv) Responsible persons retirement benefits

The aggregate amount paid during the reporting period by Council in connection with the retirement of responsible persons was \$0 (2014/15 - \$0)

(v) Loans to responsible persons

No loans in existence at balance date that have been made, guaranteed or secured by the council to a responsible person of the council, or a related party of a responsible person.

(vi) Transactions with responsible persons

During the period Council entered into the following transactions with responsible persons or related parties of responsible persons.

2015/16 Councillor Debbie Brown Councillor Joe Gauci	Browns Transport and Earthmoving Pty Ltd Gauci Electrics Pty Ltd	\$233,122.51 \$40,208.14
2014/15 Councillor Debbie Brown Councillor Joe Gauci	Browns Transport and Earthmoving Pty Ltd Gauci Electrics Pty Ltd	\$580,880.24 \$118,008.34

All transactions with related parties are in accordance with standard Council conditions of procurement.

Note 37 Events occurring after balance date

During August 2016 Council approved the acquisition of the Utopia Pet Lodge as an ongoing business to provide short term pet accommodation. Following Ministerial consent, this acquisition does not activate S193 (entrepreneurial powers) of the Local Government Act. The facility will be owned and operated by Council and provide an additional income stream to supplement the operating costs of an animal pound to be co-located on the site of the Utopia Pet Lodge.

Certification of the Financial Statements

In my opinion the accompanying financial statements have been prepared in accordance with the Local Government Act 1989, the Local Government (Planning and Reporting) Regulations 2014, Australian Accounting Standards and other mandatory professional reporting requirements.

Malcolm Lewis MBA FCPA Principal Accounting Officer Date: 1460 (CCC) Warragul

In our opinion the accompanying financial statements present fairly the financial transactions of Baw Baw Shire Council for the year ended 30 June 2016 and the financial position of the Council as at that date.

As at the date of signing, we are not aware of any circumstances which would render any particulars in the financial statements to be misleading or inaccurate.

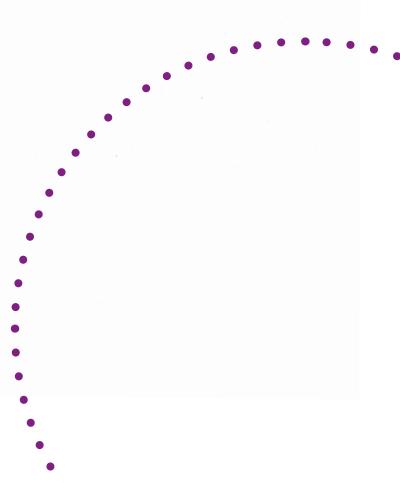

We have been authorised by the Council and by the Local Government (Planning and Reporting) Regulations 2014 to certify the financial statements in their final form.

INDEPENDENT AUDITOR'S REPORT

To the Councillors, Baw Baw Shire Council

The Financial Report

I have audited the accompanying financial report for the year ended 30 June 2016 of the Baw Baw Shire Council which comprises the comprehensive income statement, balance sheet, statement of changes in equity, statement of cash flows, statement of capital works, notes comprising a summary of the significant accounting policies and other explanatory information, and the certification of the financial statements.

The Councillors' Responsibility for the Financial Report

The Councillors of the Baw Baw Shire Council are responsible for the preparation and the fair presentation of the financial report in accordance with Australian Accounting Standards, and the financial reporting requirements of the *Local Government Act 1989*.

The Councillors are responsible for such internal control as the Councillors determine is necessary to enable the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

As required by the *Audit Act 1994* and the *Local Government Act 1989*, my responsibility is to express an opinion on the financial report based on the audit, which has been conducted in accordance with Australian Auditing Standards. Those standards require compliance with relevant ethical requirements relating to audit engagements and that the audit be planned and performed to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The audit procedures selected depend on judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, consideration is given to the internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the Councillors, as well as evaluating the overall presentation of the financial report.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independent Auditor's Report (continued)

Independence

The Auditor-General's independence is established by the *Constitution Act 1975*. The Auditor-General is not subject to direction by any person about the way in which his powers and responsibilities are to be exercised. In conducting the audit, I and my staff and delegates complied with the applicable independence requirements of the Australian Auditing Standards and relevant ethical pronouncements.

Opinion

In my opinion the financial report presents fairly, in all material respects, the financial position of the Baw Baw Shire Council as at 30 June 2016 and of its financial performance and its cash flows for the year then ended in accordance with applicable Australian Accounting Standards, and the financial reporting requirements of the *Local Government Act 1989*.

MARL

Andrew Greaves Auditor-General

MELBOURNE 19 September 2016

Performance Statement

FOR THE YEAR ENDED 30 JUNE 2016

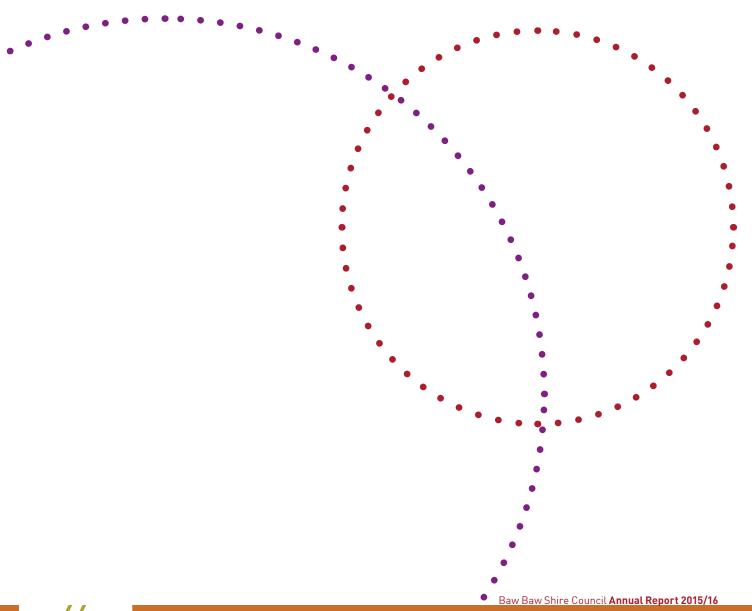

Description of municipality

Baw Baw Shire Council is approximately 100 kilometres east of Melbourne in West Gippsland. The shire was formed in 1994 from the amalgamation of the former Buln Buln and Narracan Shires, the Rural City of Warragul, and some parts of the Shire of Upper Yarra.

The northern half of the shire is heavily forested and lies in the Great Dividing Range and its foothills, including parts of the Mt Baw Baw National Park, while the shire is bounded by the Strzelecki Range and its foothills to the south. The middle part of the shire is more densely populated, particularly in areas close to the Princes Highway and the Gippsland railway line, but still retains its rural environment.

Baw Baw's main industries (in terms of economic value of output) include manufacturing; construction; rental, hiring and real estate; agriculture, forestry and fishing; and health care and social assistance.

The council covers an area of 4,027 square kilometres and has a population of 46,638 (estimated resident population as of 30 June 2015).

Sustainable Capacity Indicators

FOR THE YEAR ENDED 30 JUNE 2016

	la die ete dans sours	Results	Results	Material Variations and Community
	Indicator/measure Population	2015	2016	Material Variations and Comments
C1	Expenses per head of municipal population [Total expenses / Municipal population]	\$1,406	\$1,550	Council's total expenses were \$72,310,000 during 2015/16, resulting in a cost to deliver Council services per head of population of \$1,550. This is a variation to the previous year result due to the reclassification of net loss on disposal now included in total expenses. Using this same methodology, the previous year results would have been \$1,480 which represents a 4.7% increase.
C2	Infrastructure per head of municipal population [Value of infrastructure / Municipal population]	\$11,266	\$11,418	The value of the municipality's infrastructure was \$11,418 per head of population. Increased investment in the annual capital works program has resulted in a corresponding and increased (favourable) result.
C3	Population density per length of road [Municipal population / Kilometres of local roads]	26	26	There are approximately 26 residents for each kilometre of local roads.
C4	<i>Own-source revenue</i> <i>Own-source revenue per head of</i> <i>municipal population</i> [Own-source revenue / Municipal population]	\$1,080	\$1,190	This indicates Council's capacity to generate own source revenue (mainly rates and user charges) per head of population. The result for 2015/16 reflects a favourable position and ongoing sustainability.
C5	Recurrent grants Recurrent grants per head of municipal population [Recurrent grants / Municipal population]	\$409	\$274	Council received recurrent grants of \$12,795,000 during the year. This is lower than expected mainly due to Victoria Grants Commission payment of \$4 million received in the prior financial year.
C6	Disadvantage Relative Socio-Economic Disadvantage [Index of Relative Socio-Economic Disadvantage by decile]	6	6	The Australian Bureau of Statistics (ABS) prepares an index of relative socio- economic disadvantage. The result for the municipality is six, where one is the most disadvantaged and 10 is the least disadvantaged.

Service Performance Indicators

FOR THE YEAR ENDED 30 JUNE 2016

	Service/indicator/measure	Results 2015	Results 2016	Material Variations and Comments
AF6	Aquatic Facilities Utilisation Utilisation of aquatic facilities [Number of visits to aquatic facilities / Municipal population]	1.9*	1.4	Council's aquatic facilities include those at Drouin, Neerim South, Rawson, Trafalgar, Thorpdale and the Warragul Leisure Centre. The result for this performance measure is lower this year due to the closure of the aquatic facilities at the Warragul Leisure Centre for redevelopment.
AM4	Animal Management Health and safety Animal management prosecutions [Number of successful animal management prosecutions]	1	7	Council conducted a total of seven successful animal management prosecutions in 2015/16. These prosecutions were conducted in relation to dog attacks, dog rushes and dogs at large offences, and are conducted on an as needs basis or when required under the provisions of the Domestic Animals Act 1994. However, Council's primary strategy is focused on communication and education of pet owners.
FS4	Food Safety Health and safety Critical and major non-compliance outcome notifications [Number of critical non-compliance outcome notifications and major non- compliance notifications about a food premises followed up / Number of critical non-compliance outcome notifications and major non-compliance notifications about a food premises] x100	46.5%*	40.9%	During the year, Council recorded a total of 181 critical non-compliance notifications and major non-compliance notifications about food premises, and followed up 74 of these due to resourcing challenges.

* To ensure comparability of indicators, these comparative figures for 2015 have been amended to accord with the current presentation. The restated comparatives which has changed materially on amounts previously disclosed in the Performance Statements for the year ended 30 June 2015, as disclosed in the below table.

	Service/indicator/measure	Previously reported 2015	Restated in 2015	Reason for restatement
AF	Aquatic FacilitiesUtilisation0Utilisation of aquatic facilities	2	1.9	Review of reporting identified an overstatement of the number of visits to aquatic facilities.
FS4	Food Safety Health and safety Critical and major non-compliance outcome notifications	60.7%	46.5%	Process improvements to reporting identified errors in calculations of the number of non-compliance notifications and the number followed up.

Service Performance Indicators

FOR THE YEAR ENDED 30 JUNE 2016

G5	Service/indicator/measure Governance	2015	2016	Material Variations and Comments
00	Satisfaction Satisfaction with council decisions [Community satisfaction rating out of 100 with how council has performed in making decisions in the interest of the community]	53	47	The annual Community Satisfaction Survey assesses the community's satisfaction with Council's performance. Satisfaction with Council decisions was rated as 47 out of 100, six less than obtained in 2014/15.
HC6	Home and Community Care (HACC) Participation Participation in HACC service [Number of people that received a HACC service / Municipal target population for HACC services] x100	44.4%	44.1%	Council's performance for 2015/16 remains consistent with last year, with 2,065 people receiving a Home and Community Care service out of a target population of 4,679.
HC7	Participation Participation in HACC service by CALD people [Number of CALD people who receive a HACC service / Municipal target population in relation to CALD people for HACC services] x100	32.6%	32.2%	Council's performance for 2015/16 remains consistent with last year, with 175 culturally and linguistically diverse (CALD) people receiving a Home and Community Care service out of a target population of 543.
LB4	Libraries Participation Active library members [Number of active library members / Municipal population] x100	20.8%	19.0%	During the year 8,876 library members borrowed a library collection item, which represents approximately 19 per cent of the estimated resident Baw Baw population. This is consistent with last year's result.
MC4	Maternal and Child Health (MCH) Participation Participation in the MCH service [Number of children who attend the MCH service at least once (in the year) / Number of children enrolled in the MCH service] x100	77.0%	0.0%	In 2016 there was a state wide initiative to transition the majority of councils offering Maternal and Child Health services to a new database. The database is not expected to provide reliable information until the end of September 2016 which is after the deadline for the annual report, therefore, we are unable to report this data for the 2015/2016 financial year.
MC5	Participation Participation in the MCH service by Aboriginal children [Number of Aboriginal children who attend the MCH service at least once (in the year) / Number of Aboriginal children enrolled in the MCH service] x100	65.2%	0.0%	In 2016 there was a state wide initiative to transition the majority of councils offering Maternal and Child Health services to a new database. The database is not expected to provide reliable information until the end of September 2016 which is after the deadline for the annual report, therefore, we are unable to report this data for the 2015/2016 financial year.

Service Performance Indicators

FOR THE YEAR ENDED 30 JUNE 2016

	Service/indicator/measure	Results 2015	Results 2016	Material Variations and Comments
R5	Roads Satisfaction Satisfaction with sealed local roads [Community satisfaction rating out of 100 with how council has performed on the condition of sealed local roads]	36	38	The annual Community Satisfaction Survey assesses the community's satisfaction with Council's performance. Satisfaction with sealed local roads was rated as 38 out of 100, two more than obtained in 2014/15.
SP4	Statutory Planning Decision making Council planning decisions upheld at VCAT [Number of VCAT decisions that did not set aside council's decision in relation to a planning application / Number of VCAT decisions in relation to planning applications] x100	75.0%	62.5%	During the 2015/16 year there was a significant reduction in the number of planning application decisions appealed to the Victorian Civil and Administrative Tribunal (VCAT). Of those that were appealed, five out of eight Council decisions were upheld compared to nine out of 12 last year.
WC5	Waste Collection Waste diversion Kerbside collection waste diverted from landfill [Weight of recyclables and green organics collected from kerbside bins / Weight of garbage, recyclables and green organics collected from kerbside bins] x100	53.1%	52.0%	The result for this performance measure remains consistent. Over half of the Shire's waste is recycled or placed into the green organics bin, rather than into landfill.

S2	Rates effort Rates compared to property values [Rate revenue / Capital improved value of rateable properties in the municipality] x100	0.5%	0.5%	0.5%	0.5%	0.6%	0.6%	Council received \$49,350,000 in rates & charges revenue in 2015/16. This result remains constant at 0.5% due to minimal movement in valuations relative to movement in rate revenue.

Other Information

FOR THE YEAR ENDED 30 JUNE 2016

Basis of preparation

Council is required to prepare and include a performance statement within its annual report. The performance statement includes the results of the prescribed sustainable capacity, service performance and financial performance indicators and measures together with a description of the municipal district and an explanation of material variations in the results. This statement has been prepared to meet the requirements of the *Local Government Act 1989* and Local Government (Planning and Reporting) Regulations 2014.

Where applicable the results in the performance statement have been prepared on accounting bases consistent with those reported in the Financial Statements. The other results are based on information drawn from council information systems or from third parties (e.g. Australian Bureau of Statistics).

The performance statement presents the actual results for the current year and for the prescribed financial performance indicators and measures, the results forecast by the council's strategic resource plan. The Local Government (Planning and Reporting) Regulations 2014 requires explanation of any material variations in the results contained in the performance statement.

Certification of the Performance Statement

In my opinion, the accompanying performance statement has been prepared in accordance with the *Local Government Act 1989* and the Local Government (Planning and Reporting) Regulations 2014.

Malcolm Lewis MBA FCPA **Principal Accounting Officer** Dated: 14.18/16

In our opinion, the accompanying performance statement of the Baw Baw Shire Council for the year ended 30 June 2016 presents fairly the results of council's performance in accordance with the *Local Government Act 1989* and the Local Government (Planning and Reporting) Regulations 2014.

The performance statement contains the relevant performance indicators, measures and results in relation to service performance, financial performance and sustainable capacity.

At the date of signing, we are not aware of any circumstances that would render any particulars in the performance statement to be misleading or inaccurate.

We have been authorised by the council and by the Local Government (Planning and Reporting) Regulations 2014 to certify this performance statement in its final form.

INDEPENDENT AUDITOR'S REPORT

To the Councillors, Baw Baw Shire Council

The Performance Statement

I have audited the accompanying performance statement for the year ended 30 June 2016 of the Baw Baw Shire Council which comprises the statement, the related notes and the certification of the performance statement.

The Councillors' Responsibility for the Performance Statement

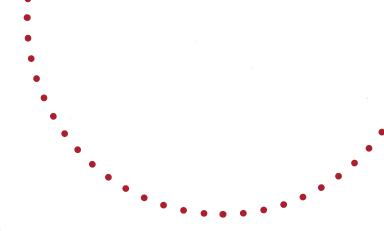

The Councillors of the Baw Baw Shire Council are responsible for the preparation and fair presentation of the performance statement in accordance with the *Local Government Act 1989* and for such internal control as the Councillors determine is necessary to enable the preparation and fair presentation of the performance statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

As required by the *Local Government Act 1989*, my responsibility is to express an opinion on the performance statement based on the audit, which has been conducted in accordance with Australian Auditing Standards. Those standards require compliance with relevant ethical requirements relating to audit engagements and that the audit be planned and performed to obtain reasonable assurance about whether the performance statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the performance statement. The audit procedures selected depend on judgement, including the assessment of the risks of material misstatement of the performance statement, whether due to fraud or error. In making those risk assessments, consideration is given to the internal control relevant to the entity's preparation and fair presentation of the performance statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the overall presentation of the performance statement.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Independent Auditor's Report (continued)

Independence

The Auditor-General's independence is established by the *Constitution Act* 1975. The Auditor-General is not subject to direction by any person about the way in which his powers and responsibilities are to be exercised. In conducting the audit, I and my staff and delegates complied with all applicable independence requirements of the Australian accounting profession.

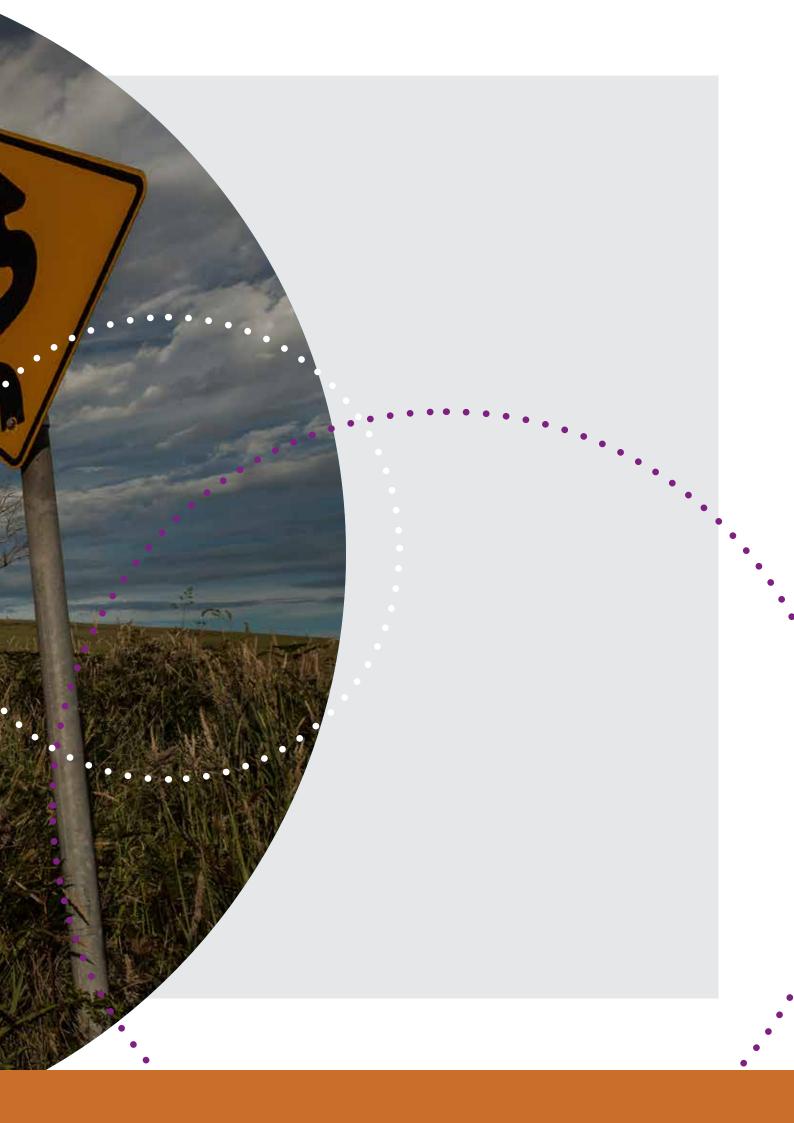

Auditor's Opinion

In my opinion, the performance statement of the Baw Baw Shire Council in respect of the 30 June 2016 financial year presents fairly, in all material respects, in accordance with the *Local Government Act 1989*.

MELBOURNE 19 September 2016

Andrew Greaves Auditor-General

N= 5.3
