Recreational Vehicle and Tourism Signage Plan

Project Summary

A Draft Recreational Vehicle and Tourism Signage Plan has been developed and we'd like to hear what you think of it.

Baw Baw Shire Council is seeking to develop a Recreational Vehicle (RV) and Tourism Signage Plan which is aligned to Council's Economic Development Agenda.

We are seeking to understand this visitor market segment and provide a plan for the provision of facilities.

We want to consider the views of all stakeholders and be consultative in our approach to finding locations across the Shire which might be suitable to establish an RV friendly park.

Recreational Vehicle and Tourism Signage Plan

Purpose

A Draft Recreational Vehicle and Tourism Signage Plan has been developed to identify areas across the Shire that may be suitable to establish RV friendly overnight stays and infrastructure related to the RV tourism market such as long term car parking, dump points and signage.

Background

There have been several requests from different town groups for Council to provide the infrastructure for them to become RV Friendly Towns, including signage, dump points, long vehicle parking, etc.

This infrastructure can be costly. A plan can assist council in strategically determining the location of these RV Friendly sites.

Project Impacts

It would be the aim of Council to minimise the impact on communities, businesses and the environment in establishing this infrastructure however potential impacts could include:

- The overuse of these areas may cause the land to look messy
- Potential litter left behind

Project Benefits

There may be numerous benefits of developing this infrastructure including:

- Community facilities (toilets, parks, BBQs)
- Better directional signage
- Increased economic benefit to the associated towns through increased expenditure from this currently uncaptured market.

Engagement Timeline

Monday 16 October 2017 to Sunday 12 November 2017.

Frequently Asked Questions

Will this project detract from already existing businesses?

The intention would be to establish these facilities in towns where no commercial caravan parks are already established.

What will the time frame of their stay be and how would this be policed?

RVs would be allowed to stay at a given site for no more than 72 hours and Council's local laws department would be involved in the policing of this.
