Purpose

To undertake community consultation on the preferred location of a premium off the dog leash area and the potential for other open space improvements in the Hollydell Park area of Trafalgar.

Council Officers have developed two options for consideration, however any further options proposed by the community will also be considered.

Council will engage with the community through online and written surveys.

Background

In March 2015, Council resolved to commence a 12-month trial of dog off-leash areas at nine parks and reserves throughout the municipality.

The trial concluded in March 2016 and community consultation was undertaken by way of an online survey from 11 March 2016 to 1 April 2016, to determine the success of the trial and the suitability of areas nominated. James Balfour Oak Tree Park, Trafalgar was the trial site for the Trafalgar area but following the community consultation Hollydell Park was proposed as an alternative site.

At the 9 May 2018 Council meeting in determined to undertake further community consultation to determine the preferred location within Hollydell Park for an off the dog leash area.

Council offices have also discussed the potential for other Open Space Improvements in Hollydell Park with nearby residents through the Trafalgar Community Development Association.

These improvements have been incorporated in the options for consideration.

OPTIONS FOR PREMIUM PARK – LINEAR RESERVE, TRAFALGAR

Following Council Officer presentation to Council a permanent premium dog park is proposed for Linear Reserve, Trafalgar. Council is now seeking community feedback on the below two options. Council has also been in discussion with the community through the Trafalgar Community Development Association for improvements to the park such as maintenance improvements to the BMX track, new footpath, seating, picnic area, basketball half court and tree planting.

A premium dog park would contain infrastructure such as signage, bins, dog litter bags, fencing, drinking water stations and dog agility equipment.

Option One:

1. Constructed a premium dog park. Size to be determined following further design
2. Maintenance improvements to the BMX track
3. Install seating
4. Potential picnic area
5. Potential half-court basketball area

Construct a new footpath and undertake tree planting through reserve.

Option Two:

1. Constructed a premium dog park. Size to be determined following further design
2. Move and reconstruct the BMX track
3. Install seating
4. Potential picnic area
5. Potential half-court basketball area

Construct a new footpath and undertake tree planting through reserve.
