- A permit for development.

A schedule to this zone may specify a minimum lot size to subdivide land. Each lot must be at least the area specified for the land, except where an application to subdivide land is made to create lots each containing an existing dwelling or car parking space, where an application for the existing dwelling or car parking space was made or approved before the approval date of the planning scheme amendment that introduced this clause 32.09 into the planning scheme.

An application to subdivide land, other than an application to subdivide land into lots each containing an existing dwelling or car parking space, must meet the requirements of Clause 56 and:

- Must meet all of the objectives included in the clauses specified in the following table.
- Should meet all of the standards included in the clauses specified in the following table.

Class of subdivision	Objectives and standards to be met
