

Willow Grove/Blue Rock Lake Loop Walk

The Blue Rock Lake is a popular spot for boating, fishing (Australian Bass), kayaking, swimming and picnics. Public toilets and parking are available at both the Blue Rock Lake recreation area and at the Willow Grove Recreation Reserve within the township.

The Blue Rock Lake was completed in 1984 to supply water to the Latrobe Valley for industrial, private irrigation and domestic water requirements. The Lake has a storage capacity of 208,000 ML.

The track follows the shore of the Lake, before turning up Blue Rock Road to the Willow Grove township. It then follows along the Moe-Willow Grove Road, before heading back down Old Tanjil Road and returning to the lake area.

Total Distance: 3.5 km - 45 minutes return

Willow Grove
